

## FOR IMMEDIATE RELEASE

### **SLEEGERS TANKS BECOMES A SHAREHOLDER IN P<sub>3</sub>8 INC. TO SUPPORT PROPANE GROWTH AND TO ASSIST THE INDUSTRY IN ATTAINING HIGHER STANDARDS OF REGULATORY COMPLIANCE AND PRODUCT SAFETY**

London, Ontario, Canada – May 26, 2009

SLEEGERS Tanks Inc., based in London, Ontario, Canada has today announced it has invested as a shareholder in P<sub>3</sub>8 Inc. In addition to making this financial commitment, SLEEGERS will utilize its significant technical expertise to assist the P<sub>3</sub>8 organization.

P<sub>3</sub>8 Inc. has been formed by a number of propane industry leaders, and it has five main purposes:

- Aggressively pursue propane demand growth in the transportation segment
- Supply best of class platform specific engine conversion technologies
- Improve the public perception, knowledge and commercial awareness of propane
- Conform to the highest standards of regulatory compliance and product safety
- Explore synergies to enhance customer value proposition

“For our organization the decision to become involved was easily made. The goals of SLEEGERS and P<sub>3</sub>8 are aligned. Our team of engineers is looking forward to contributing their significant technical expertise and know-how to the P<sub>3</sub>8 organization to help raise the bar on technical and compliance standards within the propane industry” said Dan Granger, President of SLEEGERS.

#### **About SLEEGERS Tanks Inc.**

SLEEGERS is North America’s leading manufacturer of propane motor fuel tanks for propane vehicle conversions. SLEEGERS is an original equipment manufacturer (OEM) supplier to Roush, Bluebird, Ford, and Schwan’s which demand the highest in technical capability, supply chain response and quality standards.

SLEEGERS tanks are built to ASME and CSA standards. Brackets are designed and fabricated to meet the requirements of multi-faceted jurisdictions including, NFPA 58, CSA B149.5, Rail Road Commission of Texas, and California Title 13.
